## ReachRetargeting: Search & Site Retargeting

Reach audiences who have visited your website or have searched for your business' targeted keywords. This is a high intent audience that is typically far along in their buying journey. Share a targeted message (or offer) with them about your product, encouraging them to end their journey with you.

## ReachRetargeting: Site Retargeting with Lookalikes Option

97% of first-time visitors to your website don't take action.<sup>1</sup> Stay top-of-mind with those visitors and bring them back to your website by retargeting them with desktop, mobile and in-app ads. Target others with similar "lookalike" behavior and characteristics to your visitors for even more powerful results.
